PROJECTS

Ev Station Application 10/22 - 12/22

- Utilize this application to easily locate and charge your electric vehicle (EV) at the nearest charging station.
- Utilize Twilio for user and vendor verification
- We were also created Admin Pannel for this application

waamDe Ecommerce Web and mobile Application 01/23 - 03/23

- Developed an API for the e-commerce application Waamde, which is a multi-vendor platform.
- Created an API for both application users and vendors.
- Developed a website for the project, including integration of Twilio, SMTP mail, and Stripe and Orange Money payment gateway.
- .

4kinc 03/23 - 04/23

- 4K is a website that hires job seekers and gives them jobs in the UK. We submitted the user form and Approved that form by Manager and sent mail to User Manager and Admin.
- We used Smt mail to send emails.
- We used Dom pdf, after the approval by manager User to get an agreement pdf in mail according to agreement type.
- .

Linktoscale 04/23 - 07/23

- I have developed 'LinkToScale' using Django, a property management web application. Users can upload properties for admin approval, ensuring validated listings on the website.

Llux

07/23 - 08/23

- I spearheaded the development of 'Llux', a cutting-edge property project, using React and Laravel.
- My role included creating APIs to enable seamless communication between front-end and back-end systems, resulting in a responsive and feature-rich web application.
- This experience showcased my proficiency in full-stack development and API integration.

NVQ and Courses

08/23 - 08/23

- I conceived and executed 'NVQ and Courses,' an online platform enabling users to purchase and apply for courses.
- I integrated Stripe and PayPal payment gateways to facilitate secure transactions.
- This project highlights my expertise in e-commerce, payment gateway integration, and user-focused web development.

Abali Property Web Application

08/23 - present

- I developed 'Abali,' a property platform allowing users to list properties for rent. Additionally, I created an intuitive admin panel for efficient property management.
- This project showcased my skills in full-stack development, user interface design, and backend administration for a seamless property marketplace.

DEAR HIRING MANAGER

- I am highly motivated progress focused software developer.
- Throughout the course of my career, I have perfected my programming abilities. I am Capable and consistent problem solver skilled
- I am progressive minded and tune with new development in my fields Thanks for you consideration
